Wade's Biography

“Wade and his wife both grew up in Kansas, but they left the state to gather various degrees at Oklahoma State and UC Davis and to work. They both ended up with advanced degrees studying cancer. Through those 20 years in Oklahoma, California, and Texas, they always felt Kansas was home. So, when an opportunity became available in K-State Extension, Wade took it and they moved back. Wade and his family now enjoy living at their eight-acre home with a large garden, chickens, a horse, and a sweet basset hound. He has one daughter in college and the other is a Senior in High School.”
