Kansas Agricultural Technologies Conference Comes to Clay Center!

Join us for the 26th Kansas Agricultural Technologies Conference on Friday, March 7th, in Clay Center. K-State Research & Extension (KSRE) and the Kansas Agricultural Research & Technology Association (KARTA) are collaborating to bring together farmer researchers, industry professionals, and extension specialists to showcase the industry's latest research and technology. General registration is \$75, and student registration is \$25 for high schoolers, junior college, and university students. Doors open at 8:00 AM with registration and a trade show, and presentations begin at 9:00 AM. This all-day event will include a catered lunch and dinner, eight 40-minute presentations by farmer researchers, extension specialists, and industry professionals, capped off with a keynote presentation from Dr. Wes Lowe of Mississippi State University's Department of Agricultural Engineering on "See & Till" Precision Cultivator Technology. Sign up today at <https://www.karta-online.org/> or by contacting Luke Byers, River Valley Extension District Agriculture Agent at 785-632-5335 or by email at lsbyers@ksu.edu. We hope to see you there!
