Alzheimer's Community Forum

Alzheimer's disease is not a normal part of aging. It can be a challenge to seek the help needed, if you have a loved one with Alzheimer's disease, dementia, or memory loss. Join the Alzheimer's Association and other community partners at a town hall style meeting to learn more about available resources, share your experiences, engage in the cause, and ask questions about the disease. Circle March 5th from 6:00-7:30 p.m. on your calendar. The Forum will be held at the Clay Center Community High School (1630 9th Street).

RSVP to the Alzheimer's Association by calling 1-800-272-3900, if you plan to attend. Light refreshments and snacks will be provided. For more information, contact Haley Young by calling 785-379-3067 or emailing hdyoung@alz.org. Everyone invited to this free Forum.
