Rebecca Zach to Serve as River Valley District Extension Agent

MANHATTAN, Kan. – Rebecca Zach will join the staff of K-State Research and Extension – River Valley District as a Crop Production Extension Agent, effective January 12, 2020. River Valley Extension District has offices located in Belleville, Clay Center, Concordia, and Washington, KS. Rebecca’s primary office is located in Concordia.

She earned her bachelor’s degree in Agronomy, Consulting and Production, from Kansas State University.

Zach has most recently been employed as an Agronomy Intern for Winfield United.

Crop Production agents develop and deliver educational programs related to production, management, and marketing for crop production. Programming may include, but is not limited to: planting, irrigation, weed and pest control, soil testing, fertilization, and harvesting.

Local extension faculty are jointly employed in a partnership between K-State Research and Extension, headquartered on the Kansas State University campus in Manhattan, and the local Extension board.

The role of K-State Research and Extension is to encourage the adoption of research-based information to improve the quality of life for Kansans. K-State Research and Extension is the short name for the Kansas State University Agricultural Experiment Station and Cooperative Extension Service.

More information about K-State Research and Extension River Valley District is available by calling (785) 632-5335 or on the Web: rivervalley.k-state.edu.
