Jordan Schuette, Adult Development & Aging Agent
River Valley Extension District
7/9/2020

New Adult Development and Aging Agent

I am excited to be the new Adult Development and Aging Agent for the River Valley Extension District. My name is Jordan Schuette and I transitioned into this new role as of June 1, 2020. Though I am new to this position, I am not new to the River Valley Extension District. For the past year, I have served as the 4-H Youth and Development Agent. I have had a wonderful experience working with the 4-H youth, families, and volunteers of the River Valley Extension District.

I am excited to continue having a great experience within the River Valley Extension District working with other community agencies and adults. I believe my educational background will aid me in serving the adult population of the River Valley Extension District. I graduated with my Masters from Kansas State University in Family Studies and Human Services emphasis in Marriage and Family Therapy in 2017. I have two bachelor's degrees, one from Tabor College in Secondary Education and History and the second is from Kansas State University in Family Studies and Human Services. My previous work experiences include interning with KSRE as an undergrad, working within the school system, and working at a community mental health agency.

In the future, I will work with programs such as Stay Strong, Stay Healthy, the Alzheimer's Association, and help with Medicare. Before I can begin working with a few of these programs I need to receive training. Once I have been trained, it will be communicated to the residents in the River Valley Extension District. Until then, I will keep you updated on other available programming within the district.

Currently, I am housed in the Belleville office. I look forward to future programming opportunities. I am excited to work with community agencies and the adult population in the River Valley Extension District. If you would like to contact me, please feel free to call me at 785-527-5084 or email me at jschuette@ksu.edu.
